

Water Lab

Water Lab is a research-based, landscape architecture design studio that works to create urban flooding and stormwater interventions in ways that rebuild systems and relationships among land, water and people.

Water Lab is providing research support for Iñigo Manglano-Ovalle's *Toward Common Cause* project, *Hydrant*, 41°47'22.662" N – 87°37'38.364" W, from the series *Well*.
